ALL STINGRAYS INCLUDE THIGH PADS

# JOIN THE KAYAK FISHING MOVEMENT!

*Find out why so many fishermen are leaving behind the motor and turning to the quiet stealth of a fishing kayak. Heritage Kayaks offers many models of angler-outfitted kayaks designed to put you where the fish are hiding.*

Angler versions include two flush mounts, one deck mounted for spin casting and an anchor system.

*The Heritage Kayaks Professional Guide Program is a network of talented and dedicated anglers from across the country. No one knows their home waters like a Heritage endorsed guide and they are committed to helping you find the fish you're after.*
